Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-21 are rejected under 35 U.S.C. 102(b) as being anticipated by Virgil (5493679).

In figure 3 Virgil discloses a computer aided design system with the WAN 114 connected to a control file or neutral database106. In order to access data from the control file, it is necessary that the data is addressable. Virgil states on lines 63-65 of column 9 "The VM operating system is will known, and is in widespread use as a platform for CAD systems. Figure 4b depicts the platform, which is connected to figure 4a demonstrating that data is capable of being conveyed from the files in figure 4a to the platform 4b.

Response to Arguments

3. Applicant's arguments filed on June 2, 2005 have been fully considered but they are not persuasive.

On pages 7 and 8, the Applicant explains the objectives of the invention in "solving the residual problems of prior art solutions".

The Applicant's response is a narrative explaining conceptually how the invention differs from Virgil and other prior art. The only specific claim limitation that the Applicant provides is the computer aided design neutral database, which is recited in claims 2, 3, 8, 9, 14, 17, 19, 20, and 21. The Applicant's response does not discuss specific limitations in the other claims.

The rejection identified database 106 as the "control file or neutral data base". The applicant does not specifically refute this argument and explain why this is not the case.

The response does not address the specific arguments of the rejection in terms of the specific claim limitations.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action:
